

Felt Go 9x9

Colour up your Go life

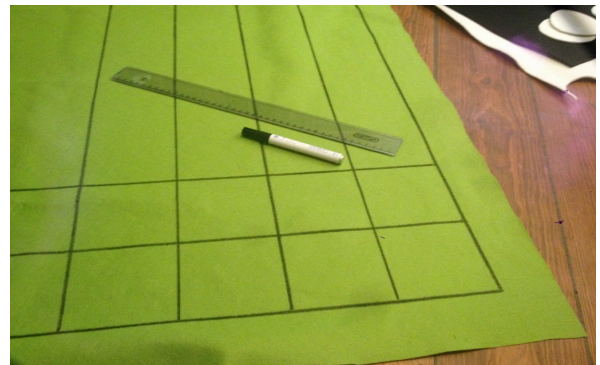

The idea:

- eye-catcher for public events
- big size table board for larger groups especially children
- funny to play with, also on the floor
- easy to teach with
- easy to make it by yourself
- low costs (about 20 €)
- spread Go not only with black and white

You need:

- 1x1m felt for the board, about 1,5mm thick
- 0,5m x 1m felt in black and also white 2-3mm thick
- a scissor
- an edding 500 in black
- a ruler
- 3 hours of your time

How to make it:

- cut one example of a round stone with 9cm diameter
- then use this to cut the other stones
- the board should have 6-7 cm around the outer lines
- distance of 9x9-line = 10,5 cm
- complete size: 8x 10,5cm = 84cm + 2x 6 or 7 cm

You have two left hands or no time to make this game set by yourself?
